

for heating pump assemblies PrimoTherm®

Application

For distribution of the heating circuit water in sealed heating systems as per EN 12828 from the boiler to the heating pump assemblies PrimoTherm®.

Description

Hydraulic separator for retrofitting boiler manifold KSV (without hydraulic separator).

Technical Specifications

Operating temperature range
Medium: max. 110 °C

Heat insulation
Polypropylene EPP

System pressure
max. 6 bar

Versions

			Part no.
hydraulic separator for KSV 125 70 kW	●		77317
hydraulic separator for KSV 125 160 kW	●		77323

- in-stock items
