

hydraulic separator for KSV 125 160 kW

Part no. 77323

for heating pump assemblies PrimoTherm®

Application

For distribution of the heating circuit water in sealed heating systems as per EN 12828 from the boiler to the heating pump assemblies PrimoTherm®.

Description

Hydraulic separator for retrofitting boiler manifold KSV (without hydraulic separator).

Technical Specifications

system connections

160 kW
G2 female
160 kW
G2 female

Flow

160 kW
7 m³/h

System pressure

max. 6 bar

Operating temperature range

Medium: max. 110 °C

Heat insulation

Polypropylene EPP

Versions

Part no.
