

Probe for ÖWWG 3 year of manufacture 09/2013 and later

Part no. 44484

Application

For the detection of liquids with a flash point of >55 °C. Suitable for the following media: water, fuel oil, diesel fuel or low-viscosity lubricating oils, motor oils, hydraulic oils, vegetable oils and transformer oils, antifreeze agents, oil-water mixtures and emulsions.

Description

Suitable for ÖWWG 3. The probe is mounted at the lowest point of the object to be monitored or in the drip pan. The alarm is triggered by the alarm unit when the probe comes into contact with liquid.

Technical Specifications

probe diameter
14 mm

Response level
17 mm

Cable length
10 m
